

Consultation Document: List of Provincial Park Management Plans Proposed to be Amended

June 2021

This consultation document lists provincial park management plans associated with the Ontario Parks Permitted Uses Amendment Policy (phase out) and within the Temagami land use planning area where amendments to site-specific direction would be required in order to align with the proposed regulatory and policy amendments. This document is intended to be considered in the context of the proposed regulatory and policy amendments and will be available for the 45-day consultation period on the Environmental Registry of Ontario.
