6. Former Uses of Site and Adjacent Land (History)

6.1 Has there been an industrial or commercial use, or an orchard, on the subject land or adjacent lands?

Yes No Unknown

If yes, specify the uses.

6.2 Has the grading of the subject land been changed by adding earth or other material(s)?

Yes No Unknown

6.3 Has a gas station been located on the subject land or adjacent land at any time?

Yes No Unknown

Has there been petroleum or other fuel stored on the subject land or adjacent land?

Yes No Unknown

6.4 Is there reason to believe the subject land may have been contaminated by former uses on the site or adjacent site?

Yes No Unknown

6.5 What information did you use to determine the answers to the above questions on former uses?
[Historical Title / patent search and information from owner / applicant.](#)

6.6 If yes to any of (6.1), (6.2), (6.3) or (6.4) an inventory of previous uses of the subject land or, if appropriate, of the adjacent land(s), is needed.

Note: All materials required in the official plan for complete application must be provided at the time of submitting an application.

8. Status of Current and Other Applications under the *Planning Act*

8.1 Current

Is this application a re-submission of a previous consent application? *

Yes No Unknown

If yes, and if known, describe how it has been changed from the original application.

MMAH 54-C-215406 was given provisional consent on October 13, 2021 and was receipted at the Land Title Office on November 4, 2022. On November 15, 2023, it was discovered that the Consent was registered without the stamp verifying compliance with the Planning Act.

As this was past the two year period to complete a Consent, there appears to be no other recourse than to submit a new application.

8.2 Has the subject land ever been severed from the parcel originally acquired by the owner of the subject land? *

Yes No Unknown

If yes, provide (below) the date of transfer, the name of the transferee and the land use (for multiple transfers attach a separate sheet).

Severed parcel	Date of transfer (yyyy/mm/dd)	Name of transferee	Use of severed parcel

Other Planning Applications

Has the subject land ever been the subject of any other planning application, including applications before the Ontario Land Tribunal (OLT) or any of its predecessors, for approval of either:

If yes and if known, what is the Ontario Regulation number? _____

Note: Please provide list(s) of the relevant applications on a separate page and attach to this form.

9. Provincial Policy

9.1 Is the proposal consistent with the **Provincial Policy Statement (PPS)** issued under subsection 3(1) of the *Planning Act* (see Appendix A for more details)? *

Yes No

9.2 Explain how the application is consistent with the PPS. Attach a separate page if necessary.
 Please see the attached letter for a more detailed explanation regarding the mapping error that forms the basis of this severance request. This proposed request is consistent with provincial interests as detailed in section 1.1.6 of the PPS as well as land use planning for rural Northern Ontario; with this severance there will be no change in the current land use of the lands in question nor will it create any unjustified or uneconomical expansion of any roadway related infrastructure.

9.3 **Table A** is a checklist (not a substitute for the Provincial Policy Statement) to assist in identifying areas of provincial interest that may apply to your application.
 Please fill in the appropriate rows in **Table A**, if any apply.

10. Provincial Plans

10.1 Is the subject land for the proposed development located within an area of land designated in any provincial plan? *

Yes No

10.2 If yes, identify which provincial plan(s) and explain the current designation(s) of the subject land(s).

The subject lands are within the area covered by the Growth Plan for Northern Ontario.

10.3 If yes, does the proposal conform/not conflict with the policies contained in the provincial plan(s)? *

Yes No

If yes, please explain. Attach a separate page, if necessary. Submit a copy of the planning report, if applicable.

The proposed severance is consistent with provincial interests as detailed in section 1.1.6 of the PPS as well as land use planning for rural Northern Ontario; with this proposed severance there will be no change in the current land use of the lands in question nor will it create any unjustified and / or uneconomical expansion of any roadway related infrastructure.

11. Servicing

11.1 Subject Lands

Indicate in a) and b) the proposed type of servicing for the subject land. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.1 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the subject land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? *

Private Services

11.1 b) Indicate the proposed type of water supply system – whether water will be provided to the subject land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? *

Private Services

11.2 Retained Lands

Indicate in a) and b) the proposed type of servicing for the retained lands. Select the appropriate type of servicing from Table B. If servicing is private, please indicate the type of private servicing.

11.2 a) Indicate the proposed type of sewage disposal system – whether sewage disposal will be provided to the retained land by a publicly owned and operated sanitary sewage system, a privately owned and operated individual or communal septic system or other means? *

Private Services

11.2 b) Indicate the proposed type of water supply system – whether water will be provided to the retained land by a publicly owned and operated piped water system, a privately owned and operated individual or communal well, a lake or other water body or other means? *

Private Services

11.3 Hauled Sewage

If development is proposed on privately owned and operated individual or communal septic system, provide confirmation that there is adequate reserve sewage treatment capacity for hauled sewage (septage) resulting from the proposed development. See Table B below.

No building development is proposed.

Table B – Sewage Disposal and Water Supply

	Type of Servicing	Reports/Information Needed
Sewage Disposal	a) Publicly owned and operated sanitary sewage system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient uncommitted reserve sewage system capacity to service the development at the time of conditional consent.
	b) Public communal septic	Development generating effluent of more than 4,500 litres per day may need a servicing options study and hydrogeological report.
	c) Privately owned and operated individual septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	d) Privately owned and operated communal septic system	If the requested change would permit development on individual or communal septic system and more than 4,500 litres of effluent would be produced per day as a result of the development being completed, a servicing options report and a hydrogeological report may be needed. If proposal would produce effluent less than 4,500 litres per day, a hydrogeological report may be needed.
	e) Privy	Provide details on location and size of out-houses.
	f) Other	Please describe.
Hauled Sewage		If development is proposed on privately owned and operated individual or communal septic systems, applicant must provide evidence in the application showing either: i) municipal confirmation of sufficient uncommitted reserve sewage system capacity for treatment of septage resulting from the proposed development; OR ii) confirmation (i.e., letter) from a commercial enterprise (private provider) for hauled sewage (septage) indicating that capacity is available to accommodate the specific proposal.
Water Supply	a) Publicly owned and operated piped water system	Applicants must provide evidence in their application that there is municipal confirmation of sufficient reserve water system capacity to service the development at the time of conditional consent.
	b) Privately owned and operated individual well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	c) Privately owned and operated communal well	Development on communal or individual well system may need a servicing options report and a hydrogeological report. Non-residential development on communal well system may need a hydrogeological report.
	d) Lake	A Permit to Take Water may be required. Contact your regional Municipal Services Office and the Ministry of Environment, Conservation and Parks office for guidance.
	e) Other water body	Please describe.
	f) Other means	Please describe.

Notes

1. To facilitate review of the application, submit a letter from the municipality to show concurrence (or not) with the recommendations in the servicing options report.
2. Before undertaking a hydrogeological report, consult MMAH for advice given the location of the subject land.
3. Where communal services are proposed (water and/or sewage), ownership of these services must be assumed by the municipality or a public body through a signed letter of acceptance.
4. To facilitate review of the application, submit a letter from the local health unit indicating that the site is developable and could accommodate the proposal.
5. A building permit is required for septic systems under Part 8 of the Building Code. See Appendix A.

12. Access

12.1 The proposed road access would be by: *

Other public road

Note: (See **Appendix A** for information on MTO Access Permits)
Certain type of development is not permitted on seasonally maintained roads.
Early consultation with your regional MSO is recommended.

12.2 Additional details on "other public road" and "right-of-way"

Would proposed **road access** be by:

Crown road Local roads board Private road

12.3 If access to the subject land is by "other public road" or "right-of-way", or private road, indicate:

i) The owner of the land or road

Township of Robillard

ii) Who is responsible for maintenance

Robillard and Area Local Roads Board

iii) Whether maintenance is seasonal or year round

Maintenance is seasonal

Note: Access by right-of-ways and/or private roads are not usually permitted, except as part of a condominium.

12.4 Is water access ONLY proposed? *

Yes No

If yes, on a separate page, describe i) the parking and ii) docking facilities to be used and the approximate distance of these facilities from the subject land and the nearest public road access.

Attached

You may be required to provide a letter from the owner(s) of a commercially operated parking and docking facility indicating that capacity is available to accommodate your specific proposal.

13. Proposal Waste Disposal

13.1 Garbage disposal is proposed to be by:

14. Sketch: Use the attached sketch sheet.

To help you prepare the sketch, refer to the attached sample sketch.

14.1 The application shall be accompanied by a sketch showing, in **metric units**, the following:

- The boundaries and dimensions of the subject land, the part that is intended to be severed and the part that is intended to be retained;
- The location, size and type of all existing and proposed buildings and structures on the subject land, including their setback from the front yard, rear yard, side yard and opposite side yard;
- The boundaries and dimensions of any land abutting the subject land that is owned by the owner of the subject land;
- The approximate distance between the subject land and the nearest township lot line or landmark, such as a railway crossing or bridge;
- The location of all lands previously severed from the parcel originally acquired by the current owner of the subject land;
- The approximate location of all natural and artificial features on the subject land and adjacent lands that, in the opinion of the applicant, may affect the application, such as buildings, railways, roads, watercourses, drainage ditches, river or stream banks, wetlands, wooded areas, wells and septic tanks;
- The current use(s) on land that is adjacent to the subject land;
- The location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road allowance, a public travelled road, a private road or a right of way;
- If access to the subject land is by water only, the location of the parking and boat docking facilities to be used;
- The location and nature of any easement affecting the subject land;
- The severed parcel, the date of transfer, the name of the transferee and the use of the land.

15. Other Information

15.1 Is there any other information that may be useful to the ministry in reviewing this application (e.g., information relating to the requirements and policies in the municipal official plan or efforts made to resolve outstanding objections or concerns by area resident(s), the municipality, other)?

If so, explain below or attach a separate page with this information.

See accompanying, Appendix, letter and Annexes

This exact application was given provisional consent on October 13, 2021 and subsequently deposited at the Land Registry Office, but must be re-submitted due to a clerical error.

Attention: Danielle Belanger-Corbin

Danielle,

In response to your e-mail of Mar 25, 2021, requesting information on Gravel Pit Road (Robillard Conc. 3) and a section of Bear Road running generally south from Gravel Pit Road.

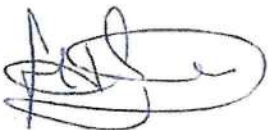

Bear Road running south from Gravel Pit Road, and Gravel Pit Road have been designated by the RLRB as seasonally maintained roads. This means that the roads receive minimal summer maintenance and no winter maintenance.

Gravel pit road is seasonally maintained approximately 1.1 Km east from Bear Road. Bear Road is seasonally maintained approximately 1 Km south from Gravel Pit Road and 1.6 km north.

The Robillard LRB does not have any concerns regarding the increased number of agricultural lots fronting on Gravel Pit Road (Robillard Concession Road 3) and Bear Road, as a result of this proposed severance

I trust this will answer your questions. If you require any further clarification please feel free to contact me.

Regards,

Jim McLaren

Re: MMAH File 54-C-207750, our matter # 24652

Dear Ms. Lawrence,

Thank you for providing us with your early consultation commenting letter and preliminary review of the draft application to above noted proposal

The following addresses some of the concerns you raised in that correspondence and should be read in conjunction with the applicant's severance applications. Since these are to be treated as two separate severances, as per your early consultation commenting letter, the severance of Parcel #2 will be identified as MMAH File 54-C-207750-A and the severance of Parcel #3 will be identified as MMAH File 54-C-207750-B.

In order to avoid confusion with the concession lots and the new lots that we are proposing to create through the severance, we have renamed these as parcels as follows:

Parcel #1: PIN 61285-0060 LT -- parcel to be retained by the Applicant (your referenced Lot 1)

Parcel #2: PIN 61285-0059 LT -- parcel to be severed (your referenced Lot 2)

Parcel #3: PIN 61285-0062 LT & 61285-0063 LT -- parcel to be severed and sold to Beaver Creek Land & Cattle Co. (your referenced Lot 3)

The comments below pertain to both severances unless otherwise stated and the required sketch map at section 14 of the Application for Consent, can be found at Annex A.

With regards to the severance pertaining to MMAH File 54-C-207750-B, it is important to note that this severance application stems from a mapping discrepancy; when the Applicant purchased the parcels in question back in 2001, maps showed that parcels 61285-0060 and 61285-0062 did not abut. Had the Applicant been aware of the abutment

issue, title would have been held in a different manner in order to avoid the merging of these parcels.

The reality is that parcel 61285-0060 shares a section approximately 118m in length along the south-westerly boundary of parcel 61285-0062. This was confirmed after examining the Crown grant survey of the North and South halves of Lot 6, Con 3, for parcel 61285-0060. We noted that the North half of Lot 6, being PIN 61285-0059 (parcel #2) and 61285-0061 (not owned by the Applicant) is indicated to be 32.62 ½ chains in length. The Crown grant for parcel #3 (61285-0062 and 61285-0063) also contains a metes and bounds description, wherein the North part of Lot 5 is described as being "thirty-eight chains fifty links". Therefore, the Southerly boundary of Parcel #3 is not level with the Southerly boundary of the adjacent property to the West (61285-0061) as there is a discrepancy of approximately 5.88 chains or 118m, in which Parcel #1 (61285-0060) abuts parcel #3 (61285-0062, 61285-0063). Please see the updated maps for clarification, which can be found at Annex A.

Access/Transportation

In accordance with Section 1.1.6.2. of the 2020 Provincial Policy Statement (PPS), this severance will not create any unjustified and/or uneconomical expansion of any roadway-related infrastructure. Robillard Concession Road 3 is currently seasonally maintained year-round by the Robillard Local Roads Board (LRB). The road known as Bear Road, which runs North-South perpendicular to Robillard Concession Road 3, is also maintained seasonally. The Robillard LRB does not have any concerns about an increased number of agricultural lots fronting on those roads.

Please see the attached letter by the Robillard LRB, as requested, at Annex B.

Territory without Municipal Organization

We have advised the Applicant and will be informing Counsel for the proposed purchaser of Parcel #3 - Beaver Creek Land and Cattle Co. of the possibility that this formal application be given provisional consent that would limit the use of the parcels in question and that there may be a requirement to register on title that the severed and retained parcels are to be used only for agricultural uses and not for permanent residential use.

Water Servicing

We have advised the Applicant and will be informing Counsel for the proposed purchaser of Parcel #3 - Beaver Creek Land and Cattle Co. that any well would have to be constructed in accordance with Regulation 903 - Wells, under the Ontario Water Resources Act. Furthermore, the Applicant is aware that the water of Long Lake should not be used for human consumption unless it is disinfected and/or treated to meet the

Englehart River Fine Sand Plain and Waterway Provincial Park

We are aware that the bed of Long Lake is a regulated provincial park and have advised the Applicant and will be informing Counsel for the proposed purchaser of Parcel #3 - Beaver Creek Land and Cattle Co. that any work that would affect the lake bed would require prior approval from Ontario Parks and that said approval would not be guaranteed and would be subject to review under the Class Environmental Assessment for Provincial Parks and Conservation Reserves. The coordinates for the Protected Area Lands Technical Specialist (Northeast Zone Ontario Parks), Ms. Louisa Whitehead (Louisa.Whitehead@ontario.ca), have been shared with the Applicant and will be shared with Counsel for the proposed purchaser of Parcel #3 - Beaver Creek Land and Cattle Co.

Agriculture

As per your early consultation commenting letter, we have revised section 8.2 of the application form, since the lands in question are not considered to be prime agricultural lands.

The proposed severance does not propose any land development but rather, as previously stated, is a corrective measure to fix an abutment issue that was overlooked at the time of the initial land purchase by the Applicant in 2001. As such, it will not place any undue strain on public service facilities and infrastructure of the township or any surrounding municipalities.

This application is consistent with the PPS and reflects the planning principles embodied in the *Planning Act* and the *Growth Plan for Northern Ontario*. Since the impact will be minimal, the planning analysis should support the granting of a consent.

Minimum Distance of Separation

Parcel #2 (61285-0059) - to be severed: There are no livestock facilities or anaerobic digesters within 1 kilometre of this parcel. This lot would continue to be used in an agricultural capacity.

Parcel #3 (61285-0062 & 61285-0063) - to be severed: The south boundary of parcel #3 is within 1km of a small hobby farm where the owner has 4-5 horses and a small barn. This is not a commercial operation and is separated from the parcel by Long Lake. Please see the section marked as B on the map at Annex C. This lot would continue to be used in an agricultural capacity

Parcel #1 (61285-0060) - to be retained: The parcel to be retained by the Applicant is within 1 km of the small hobby farm (listed above at B) as well as an Amish farm (see A on map). According to the Applicant, the Amish owners (the Shetlers) appear to have 4-5 horses and a few heads of cattle. This is not a commercial operation and the barn is

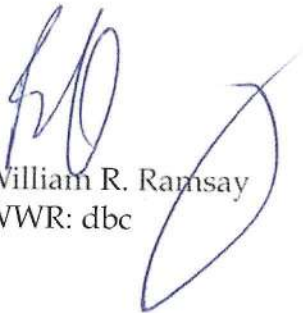

separated from parcel #1 by Long Lake as well as Highway 560. Please see the section marked as A on the map at Annex C.

Cultural Heritage and Archaeology

There are no plans to develop further or alter any of the parcels in question. The Applicant has stated that in the 50 years period where he has farmed and accessed this property, there have been neither signs of cultural relics or any other archeological findings.

We have advised the Applicant and will be informing Counsel for the proposed purchaser of Parcel #3 - Beaver Creek Land and Cattle Co. that if development were to be proposed on the subject lands in the future, an archeological assessment of the subject property may be required. We have also relayed the importance of informing the Ministry of Heritage, Sport, Tourism and Culture Industries (MHSTCI) of any findings of deeply buried cultural relics, should future construction activities ever be undertaken.

Yours truly,

William R. Ramsay
