

ENVIRONMENTAL COMPLIANCE APPROVAL

NUMBER 2039-D2GRQJ
Issue Date: June 25, 2024

JP Grease Trap Service Inc.
224 Milvan Dr, No. G
Toronto, Ontario
M9L 2A5

Site Location: 4697 Christie Drive
Lincoln Town, Regional Municipality of Niagara
L0R 1B4

You have applied under section 20.2 of Part II.1 of the Environmental Protection Act, R.S.O. 1990, c. E. 19 (Environmental Protection Act) for approval of:

a waste disposal site

to be used for the transfer and processing of the following types of waste:

grease and cooking oil from industrial and commercial food sources

Note: Use of the site for any other type of waste is not approved under this environmental compliance approval, and requires obtaining a separate approval amending this environmental compliance approval.

For the purpose of this environmental compliance approval, the following definitions apply:

"Adverse Effect" as defined in the EPA;

"Approval" means this Environmental Compliance Approval and any Schedules to it, including the application and supporting documentation listed in Schedule "A";

"Bulking" means the mixing of similar waste types into a single container in a secure and safe manner;

"characteristic waste" means a hazardous waste that is corrosive waste, ignitable waste, leachate toxic waste or reactive waste;

"Director" means any Ministry employee appointed in writing by the Minister pursuant to section 5 of the EPA as a Director for the purposes of Part II.1 of the EPA;

"District Manager" means the District Manager of the local district office of the Ministry in which the Site is geographically located;

"EPA" means Environmental Protection Act, R.S.O. 1990, c. E. 19, as amended;

"Fire Code" means Fire Code - Ontario Regulation 388/97, made under the Fire Protection and Prevention Act, 1997, S.O. 1997, c. 4, as amended;

"FOG" means fat, oil, and grease;

"Greywater" in the context of this Approval, means water separated from FOG;

"Ministry" means the Ontario Ministry of the Environment, Conservation and Parks;

"Operator" means any person, other than the Owner's employees, authorized by the Owner as having the charge, management or control of any aspect of the Site and includes its successors or assigns;

"Owner" means any person that is responsible for the establishment or operation of the Site being approved by this Approval, and includes Owner's Legal Name and its successors and assigns;

"Provincial Officer" means any person designated in writing by the Minister as a provincial officer pursuant to Section 5 of the OWRA, Section 5 of the EPA, Section 17 of the PA, Section 4 of the NMA, or Section 8 of the SDWA;

"Professional Engineer" means a Professional Engineer as defined within the Professional Engineers Act, R.S.O. 1990, c. P.28, as amended;

"Reg. 347" means Regulation 347, R.R.O. 1990, made under the EPA, as amended;

"Regional Director" means the Regional Director of the local Regional Office of the Ministry in which the Site is located;

"Site" means the entire waste disposal site, including the buffer lands, and contaminant attenuation zone at 4697 Christie Dr, Lincoln Town, Regional Municipality of Niagara;

"Trained Personnel" means personnel knowledgeable in the following through instruction¹ and/or practice:

- relevant waste management legislation, regulations and guidelines;
- major environmental concerns pertaining to the waste to be handled;
- occupational health and safety concerns pertaining to the processes and wastes to be handled;
- management procedures including the use and operation of equipment for the processes and wastes to be handled;
- emergency response procedures;
- specific written procedures for the control of nuisance conditions;

- specific written procedures for refusal of unacceptable waste loads; and
- the requirements of this Approval.

You are hereby notified that this environmental compliance approval is issued to you subject to the terms and conditions outlined below:

TERMS AND CONDITIONS

1.0 Compliance

- 1.1 The Owner and Operator shall ensure compliance with all the conditions of this Approval and shall ensure that any person authorized to carry out work on or operate any aspect of the Site is notified of this Approval and the conditions herein and shall take all reasonable measures to ensure any such person complies with the same.
- 1.2 Any person authorized to carry out work on or operate any aspect of the Site shall comply with the conditions of this Approval.
- 1.3 The Site shall be operated and maintained at all times in accordance with the EPA, Reg. 347 and the conditions of this Approval. At no time shall the discharge of a contaminant that causes or is likely to cause an adverse effect be permitted.

2.0 Design, Develop, Build, Operate, Modify and Maintain in Accordance

- 2.1 Except as otherwise provided for in this Approval, the Site shall be designed, developed, built, operated, modified and maintained in accordance with the application dated October 31, 2023, the Design and Operations Report as updated from time to time, and the other supporting documentation listed in Schedule "A".
- 2.2
 1. Construction and installation of the aspects of the Site described in Item 1 of Schedule "A" must be completed within 5 years of the later of:
 - a. the date this Approval is issued; or
 - b. if there is a hearing or other litigation in respect of the issuance of this Approval, the date that this hearing or litigation is disposed of, including all appeals.
 2. This Approval ceases to apply in respect of the aspects of the Site noted above that have not been constructed or installed before the later of the dates identified in Condition 2.2(1) above.

3.0 Interpretation

- 3.1 Where there is a conflict between a provision of any document referred to in this Approval, including the application, and the conditions of this Approval, the conditions in this Approval shall take precedence.

- 3.2 Where there is a conflict between the application and a provision in any documents listed in Schedule "A", the application shall take precedence unless it is clear that the purpose of the document was to amend the application and that the Ministry approved the amendment.
- 3.3 Where there is a conflict between any two documents listed in Schedule "A", other than the application, the document bearing the most recent date shall take precedence.
- 3.4 The requirements of this Approval are severable. If any requirement of this Approval, or the application of any requirement of this Approval to any circumstance, is held invalid or unenforceable, the application of such requirement to other circumstances and the remainder of this Approval shall not be affected thereby.

4.0 Other Legal Obligations

- 4.1 The issuance of, and compliance with, this Approval does not:
1. relieve any person of any obligation to comply with any provision of any applicable statute, regulation or other legal requirement including, but not limited to:
 - a. obtaining site plan approval from the local municipal authority;
 - b. obtaining all necessary building permits from the local municipal authority Building Services Division;
 - c. obtaining any necessary or applicable approvals from the Chief Fire Prevention Officer, local municipal authority: or
 2. limit in any way the authority of the Ministry to require certain steps be taken or to require the Owner and/or the Operator to furnish any further information related to compliance with this Approval.

5.0 Adverse Effect

- 5.1 The Owner and Operator shall take steps to minimize and ameliorate any adverse effect on the natural environment or impairment of water quality resulting from the Site, including such accelerated or additional monitoring as may be necessary to determine the nature and extent of the effect or impairment.
- 5.2 Despite an Owner, Operator or any other person fulfilling any obligations imposed by this Approval, the Owner, Operator or any other person remains responsible for any contravention of any other condition of this Approval or any applicable statute, regulation, or other legal requirement resulting from any act or omission that caused the adverse effect to the natural environment or impairment of water quality.

6.0 Change of Owner

- 6.1 The Owner shall notify the Director in writing, and forward a copy of the notification to the District Manager, within thirty (30) days of the occurrence of any changes:
1. the ownership of the Site;
 2. the Operator of the Site;
 3. the address of the Owner or Operator;
 4. the partners, where the Owner is or at any time becomes a partnership and a copy of the most recent declaration filed under the Business Names Act, R.S.O. 1990, c. B.17 shall be included in the notification; and
 5. the name of the corporation where the Owner is or at any time becomes a corporation, other than a municipal corporation, and a copy of the most current information filed under the Corporations Information Act, R.S.O. 1990, c. C.39 shall be included in the notification.
- 6.2 No portion of this Site shall be transferred or encumbered prior to or after closing of the Site unless the Director is notified in advance and sufficient financial assurance is deposited with the Ministry to ensure that these conditions will be carried out. In the event of any change in ownership of the Site, other than change to a successor municipality, the Owner shall notify the successor of and provide the successor with a copy of this Approval, and the Owner shall provide a copy of the notification to the District Manager and the Director.

7.0 Financial Assurance

- 7.1 Within 20 days of issuance of the Certificate, the Owner shall submit to the Director financial assurance as defined in Section 131 of the EPA in the amount of \$10,020.00. This financial assurance shall be in a form acceptable to the Director and shall provide sufficient funds for site clean-up, monitoring, and the analysis, transportation and disposal of all quantities of waste permitted to be on-site at any one time.
- 7.2 Commencing March 31, 2029, and every 5 (five) years thereafter, the Owner shall provide to the Director a re-evaluation of the amount of the financial assurance to facilitate the actions required under Condition 7.1. Additional financial assurance, if required, must be submitted to the Director within 20 days of written acceptance of the re-evaluation by the Director.
- 7.3 The amount of financial assurance is subject to review at any time by the Director and may be amended at their discretion.
- 7.4 If any financial assurance is scheduled to expire, or notice is received indicating financial assurance will not be renewed, and satisfactory methods have not been made to replace the financial assurance at least 60 days before the financial assurance terminates, the Owner shall forthwith replace the financial assurance with cash.

8.0 Inspections

- 8.1 No person shall hinder or obstruct a Provincial Officer from carrying out any and all inspections authorized by the OWRA, the EPA, or the PA, of any place to which this Approval relates, and without limiting the foregoing:
1. to enter upon the premises where the approved works are located, or the location where the records required by the conditions of this Approval are kept;
 2. to have access to, inspect, and copy any records required to be kept by the conditions of this Approval;
 3. to inspect the Site, related equipment and appurtenances;
 4. to inspect the practices, procedures, or operations required by the conditions of this Approval; and
 5. to sample and monitor for the purposes of assessing compliance with the terms and conditions of this Approval or the EPA, the OWRA or the PA.

9.0 Information and Record Retention

- 9.1 Any information requested, by the Ministry, concerning the Site and its operation under this Approval, including but not limited to any records required to be kept by this Approval shall be provided to the Ministry, upon request, within 3 business days.
- 9.2 The receipt of any information by the Ministry or the failure of the Ministry to prosecute any person or to require any person to take any action, under this Approval or under any statute, regulation or other legal requirement, in relation to the information, shall not be construed as:
1. an approval, waiver, or justification by the Ministry of any act or omission of any person that contravenes any term or condition of this Approval or any statute, regulation or other legal requirement; or
 2. acceptance by the Ministry of the information's completeness or accuracy.
- 9.3 All records required by the conditions of this Approval must be retained on Site for a minimum period of 2 years from the date of their creation.
- 9.4 Any information relating to this Approval and contained in Ministry files may be made available to the public in accordance with the provisions of the Freedom of Information and Protection of Privacy Act, R.S.O. 1990, c. F.31.

10.0 Service Area and Hours of Operations

- 10.1 Only waste that is generated in the province of Ontario may be accepted at the Site.
- 10.2 Waste may be received at the Site Monday-Saturday, 7:00am-8:00pm and processed 24 hours per day, 7 days per week unless otherwise restricted by local by-laws.

11.0 Signage and Security

11.1 The Owner shall install a sign at the main entrance/exit to the Site on which is legibly displayed the following information:

1. the name of the Site, Owner and Operator;
2. the number of this Approval; and
3. a 24-hour telephone number that can be used to reach the Owner in the event of a complaint or an emergency.

11.2 The Owner shall operate and maintain the Site in a secure manner, with access to the Site regulated and the perimeter of the Site secured by fencing or other features. The Owner shall ensure that the Site is secured against access by unauthorized persons at all times.

12.0 Waste Types, Waste Receiving, and Waste Loading

12.1 No waste other than fats, oil, and grease (FOG) derived from restaurants and food manufacturing, processing, or distribution facilities may be received at the Site.

12.2 No hazardous wastes, pathological wastes, agricultural wastes or sewage shall be received or processed pursuant to this Approval.

12.3 The Owner shall ensure all incoming loads are inspected by a trained attendant to ensure only approved waste is received at this Site.

12.4 If any incoming waste load is known to contain unapproved waste, or is discovered to contain unapproved waste during receipt, that load shall be rejected.

12.5 If any unapproved waste is discovered on-site, that waste shall be immediately removed from the Site for disposal in accordance with the EPA and Reg. 347.

12.6 The Owner shall ensure that a drip tray is placed under the cam-lock connection when the waste is being transferred to and from storage tanks.

12.7 The Owner and/or Trained Personnel shall be present when waste is being loaded or unloaded to view the connection and have access to the shutoff valve in case of overfilling.

13.0 Approved Waste Quantities

13.1 The amount of waste received at the Site on any one day shall not exceed 26,000L and the amount of waste received in one calendar year shall not exceed 3,500,000L.

13.2 The amount of waste present at the Site at any one time shall not exceed 46,380L.

14.0 Waste Storage

- 14.1 Waste shall be stored in accordance with the current Design and Operations Report and the supporting documentation listed in Schedule "A", and at a minimum the Owner shall ensure that all activities related to the unloading, storage, loading and other handling of waste on-site are conducted such that the operation of the Site does not result in a nuisance or an adverse effect.
- 14.2 Further to Condition 14.1 above, all Subject Waste shall be stored in the on-site containment tanks described in Item 2 of Schedule "A".
- 14.3 The Owner shall ensure that the spill protection measures for all on-site containment tanks comply with the standards set out in the Ministry document "Guidelines for Environmental Protection Measures at Chemical and Waste Storage Facilities" dated May 2007.
- 14.4 Waste shall be stored on Site for a maximum of 2 weeks.
- 14.5 The Owner shall equip each of the storage tanks with a liquid level monitoring device and a high level audible/visual alarm.

15.0 Waste Processing and Site Operations

- 15.1 No processes shall be carried out at the Site other than:
1. transfer of waste;
 2. bulking;
 3. separation of grit and greywater from waste; and
 4. discharge of greywater to sanitary sewers.
- 15.2 The Owner shall ensure that all activities at the Site related to the unloading, loading, processing and storage of waste are conducted indoors at all times.
- 15.3 The Owner shall ensure that all doors to the building are kept fully closed at all times except during the time interval when personnel and/or vehicles are entering or exiting the building.
- 15.4 No wastes shall be stored on-Site in vehicles or outside the building.
- 15.5 The Owner may stage vehicles containing waste, which are waiting to unload, outside the building subject to the following restrictions:
- i. individual vehicles may be staged outside the building for a maximum of four (4) hours; and
 - ii. the Owner shall make note, in the daily log required by Condition 24.1, as to the date, time and duration that individual vehicles are staged outdoors;
 - iii. vehicles that are emitting an odour shall not be staged outside; and
 - iv. the Owner shall monitor the vehicles staged outdoors to ensure that no leaking or odorous vehicles are staged outside.

15.6 The Owner shall ensure that the Site and related waste management equipment and appurtenances which are installed or used to achieve compliance with this Approval are properly operated and maintained in accordance with the manufacturer's requirements.

15.7 The Owner shall ensure that:

- a. the exterior of each vehicle delivering waste to the Site is washed of FOG prior to departure from the Site, as required;
- b. the receiving area is washed down after the receipt of each load;
- c. all equipment is washed as frequently as required to prevent odours and, at a minimum, on a daily basis; and
- d. process tanks are emptied and flushed if not in use for more than 24 hours.

15.8 Wastewater generated from the washing of vehicles, equipment or the building shall be collected and processed as waste, or discharged to the sanitary sewer.

16.0 Stormwater

16.1 The Owner shall ensure that all stormwater generated at the Site is managed in accordance with all applicable provincial requirements and municipal by-laws.

16.2 The Owner shall ensure that all greywater is discharged in the sanitary sewer in accordance with municipal by-laws.

17.0 Design and Operations Report

17.1 The Owner shall maintain an up-to-date Design and Operations Report for the Site, which shall contain at a minimum the information required by the Ministry's "Guide to applying for an Environmental Compliance Approval" as it applies to the Site.

17.2 The Design and Operations Report shall be:

- a. kept up-to-date at all times so that it accurately reflects the ongoing Site activities as approved under this Approval;
- b. retained at the Site;
- c. available for inspection by a Provincial Officer upon request; and
- d. updated and submitted with all future Environmental Compliance Approval applications for the Site, including a revisions tracking log.

17.3 Changes to the Design and Operations Report that do not require an amendment to this Approval under Section 27 of the EPA shall be recorded in a revisions tracking log in the Design and Operations Report and submitted to the District Manager for record keeping.

18.0 Nuisance Control

- 18.1 The Owner shall operate and maintain the Site such that dust, odours and litter do not result in a nuisance or an adverse effect.
- 18.2 The Owner shall implement necessary housekeeping procedures to eliminate sources of attraction for vermin and vectors;
- a. Within 90 days of the issuance of this Approval, the Owner shall hire a qualified, licensed pest control professional to design and implement a pest control plan for the Site.
- 18.3 The Owner shall ensure that the exterior of all vehicles leaving the Site are clear of debris and that vehicles do not drag waste, dirt or other contaminants out onto streets.
- 18.4 The Owner shall ensure that the exterior, or cam lock pump, of all trucks delivering waste to the Site is cleaned prior to leaving the Site, as needed, to prevent odours.
- 18.5 The Owner shall ensure that all waste is transferred with a cam lock fitted hose, to prevent spills and the escape of odours.

19.0 Site Inspections

- 19.1 Trained Personnel shall carry out a visual inspection of the entire Site (including all waste handling facilities, the property line and the grounds) each day the Site is in operation to ensure that:
1. the Site is secure;
 2. all equipment is in working order;
 3. tanks show no signs of leaks;
 4. the operation of the Site is not the cause of any nuisances or adverse effects as described in Condition 18 above; and
 5. the operation of the Site is not causing any adverse effects.
- 19.2 Any deficiencies discovered as a result of an inspection carried out under Condition 19.1 shall be remedied immediately.
- 19.3 A record of the inspections shall be kept in the daily log book that includes the following information:
1. the name and signature of person that conducted the inspection;
 2. the date of the inspection;
 3. a list of any deficiencies discovered;
 4. any recommendations for action; and
 5. the date, time and description of any actions taken.

20.0 Complaints

- 20.1 If at any time the Owner receives complaints regarding the operation of the Site, the Owner shall respond to these complaints according to the following procedure:
1. The Owner shall record and number each complaint, either electronically or in a log book, and shall include the following information:
 - a. the nature of the complaint;
 - b. the name, address and the telephone number of the complainant if the complainant will provide this information;
 - c. the time and date of the complaint;
 - d. weather conditions at the time of the complaint; and
 - e. Site operations being carried out at the time of the complaint.
 2. The Owner shall inform the District Office of the complaint forthwith.
 3. The Owner shall initiate appropriate steps to determine all possible causes of the complaint, proceed to take the necessary actions to eliminate the cause of the complaint and forward a formal reply to the complainant.
 4. The Owner shall provide the District Office with a report written within one (1) week of the complaint date, listing the actions taken regarding the complaint and any recommendations for remedial measures, and managerial or operational changes to reasonably avoid the recurrence of similar incidents.

21.0 Spill Prevention, Control & Countermeasures Plan

- 21.1 Within thirty (30) days of the issuance of this Approval, the Owner shall prepare a Spill Prevention, Control & Countermeasures Plan for the Site. The Spill Prevention, Control & Countermeasures Plan shall include, but not necessarily be limited to:
1. emergency response procedures to be undertaken in the event of a spill or process upset,
 2. a list of equipment and spill clean up materials available in case of an emergency;
 3. contingency procedures to be followed in the event of equipment malfunction, a labour disruption, transportation disruption, inability of receiving sites to accept waste or other business disruption to the operation; and
 4. notification protocol with names and telephone numbers of persons to be contacted, including persons responsible for the Site, the Ministry's Spills Action Centre, the local municipal fire department, the local municipal authority, the local Medical Officer of Health, the Ministry of Labour, and the names and telephone numbers of waste management companies available for emergency response.
- 21.2 The equipment, materials and personnel requirements outlined in the Spill Prevention, Control

& Countermeasures Plan are required to be kept on-site and shall be immediately available for use at all times. The equipment shall be kept in a good state of repair and in a fully operational condition.

- 21.3 The Owner shall promptly take all necessary steps to contain and clean up any spills or upsets which result from this operation. All spills and upsets shall be recorded in a written log or an electronic file format, as to the nature of the spill or upset, and action taken for clean-up, correction and prevention of future occurrences.
- 21.4 All spills, as defined in the EPA, shall be immediately reported to the Ministry's Spill Action Centre at 1-800-268-6060 and to the local municipal authority.

22.0 Fire Safety Plan

- 22.1 No later than 3 months from the date of issuance of this Approval the Owner shall prepare and submit a Fire Safety Plan to the local fire service authority.
- 22.2 No later than 10 days after receiving written concurrence/approval for the Fire Safety Plan from the local fire service authority, the Owner shall submit a copy to the District Office.

23.0 Training

- 23.1 Within thirty (30) days of the issuance of this Approval, the Owner shall develop and implement a training plan specific to the Site to ensure that all employees that operate the Site or carry out any activity required under this Approval are trained in its operation.
- 23.2 The training plan shall require and ensure through written records that all persons directly involved with activities relating to the Site have been trained with respect to:
1. relevant waste management legislation, regulations and guidelines;
 2. major environmental concerns pertaining to the waste to be handled;
 3. occupational health and safety concerns pertaining to the processes to be carried out and the wastes to be handled;
 4. the Spill Prevention, Control & Countermeasures Plan, the Fire Safety Plan and any other procedures to be employed in the event of an emergency;
 5. specific written procedures for refusal of unacceptable waste loads;
 6. contingency procedures;
 7. specific written procedures for the control of nuisance conditions; and
 8. the requirements of this Approval.
- 23.3 The Owner shall maintain on-site a written record of training which includes:
1. the date of training;

2. the name and signature of the person who has been trained; and
3. a description of the training provided.

23.4 The Owner shall ensure that Trained Personnel are on duty at all times when the Site is open to carry out any activity permitted under this Approval.

24.0 Record Keeping

- 24.1 The Owner shall maintain a daily record on-site, either electronically or in a log book, which shall include the following information:
1. the type, quantity and source of all waste received at the Site, including the date and time of arrival, manifest information, and all supporting documentation submitted with the waste;
 2. the type, quantity and destination of all waste transferred from the Site, including the date and time of transfer;
 3. a record of any waste refusals, including the type, quantity and source of any waste refused, reasons for refusal and a description of any further actions taken;
 4. a record of the daily inspections required by this Approval;
 5. a record of any complaints received; and
 6. a record of any spills or process upsets at the Site, including the nature of the spill or process upset and the action taken for the clean-up or correction of the incident, the time and date of the spill or process upset, and for spills, the time that the Ministry and other persons were notified of the spill in fulfilment of the reporting requirements in the EPA.

25.0 Annual Report

- 25.1 By March 31 on an annual basis, the Owner shall prepare a written annual report covering the previous calendar year. The report shall be maintained on-site, and shall include, at a minimum, the following information:
1. a summary of the information required under Condition 24.1(1) and 24.1(2), including an annualized reconciliation between all wastes received at the Site and all wastes transferred from the Site;
 2. a summary of the information required under Condition 24.1(3), 24.1(4), 24.1(5) and 24.1(6) above; and
 3. any recommendations to minimize environmental impacts from the operation of the Site and to improve Site operations and monitoring programs in this regard.

26.0 Closure

- 26.1 No less than three (3) months prior to the permanent closure of the Site, the Owner shall submit to the District Manager written notification of the decision to cease waste management activities at the Site and a schedule for the cessation of activities. In the event of an unplanned

permanent closure of the Site or indefinite cessation of Site activities, the Owner shall submit the above noted information to the District Manager forthwith.

26.2 Within ten (10) days after closure of the Site, the Owner shall notify the Director and the District Manager, in writing, that the Site is closed and that the decommissioning activities have been completed.

27.0 Odour Management Plan

27.1 Within 90 days of the issuance of this Approval, the Owner shall submit an Odour Management Plan to the District Manager for Approval. The Odour Management Plan shall be designed to prevent emissions from potential sources of odours from the Site and to prevent/mitigate any off site odour impacts during operations. This Odour Management Plan shall include, but not be limited to:

- a. identification of the main sources of odour emissions which may include, but shall not be limited to:
 - i. waste receiving, storing, handling and shipping operations;
 - ii. waste processing activities;
 - iii. equipment disruption/malfunction; and
 - iv. exposed openings in process and storage buildings.
- b. potential causes for fugitive odour emissions resulting from these sources;
- c. preventative and control measures, such as policies and standard operating procedures, for odour management specific to each aspect of the process and the sources identified above. Details of the preventative and control measures shall include:
 - i. a description of the control equipment to be installed;
 - ii. a description of the preventative procedures to be implemented;
 - iii. the frequency of occurrence of periodic preventative activities, as applicable.
 - iv. inspection and maintenance procedures and monitoring initiatives with record keeping to ensure effective implementation of the preventative and control measures;
- d. an implementation schedule for the Odour Management Plan, including training of facility personnel.

The Owner shall send an updated Odour Management Plan, as necessary, to the District Manager for Approval.

27.2 The Owner shall implement the procedures, measures and recommendations in the most current Odour Management Plan. The Owner shall record, in a log book, each time a specific preventative and control measure described in the Odour Management Plan is implemented:

- a. the date when each emission control measure is installed, including a description of the control measure;
- b. the date when each new preventative measure or operating procedure to minimize emissions is implemented, including a description of the preventative measure or operating procedure; and

- c. the date, time of commencement, and time of completion of each periodic activity conducted to prevent/minimize odour emissions, including a description of the preventative measure/procedure and the name of the individual performing the periodic activity.

Schedule "A"

This Schedule "A" forms as part of this Approval

1. Application for a Provisional Certificate of Approval, dated October 31, 2023 and received November 2, 2023.
2. Design and Operations Report, titled "Oil and Grease Trap Services Operational Manual", dated October 31, 2023.
3. Email from Heather Dzurko, dated April 14, 2024, containing a colour Site Location Plan, and Site photos.
4. Email from Heather Dzurko, dated May 7, 2024, containing information regarding catch basins on Site.

The reasons for the imposition of these terms and conditions are as follows:

The reason for the definitions section is to simplify the wording of the subsequent conditions and to define the specific meaning of terms as used in this Approval.

The reason for Conditions 1.0, 3.0, 4.0, 5.0 and 9.0 is to clarify the legal rights and responsibilities of the Owner and the Operator.

The reason for Condition 2.0 and 17.0 is to ensure that the Site is operated in accordance with the application and supporting documentation submitted by the Owner, and not in a manner which the Director has not been asked to consider.

The reasons for Condition 6.1 are to ensure that the Site is operated under the corporate name which appears on the application form submitted for this approval and to ensure that the Director is informed of any changes.

The reasons for Condition 6.2 are to restrict potential transfer or encumbrance of the Site without the approval of the Director and to ensure that any transfer of encumbrance can be made only on the basis that it will not endanger compliance with this Approval.

The reason for Condition 7.0 is to ensure that sufficient funds are available to the Ministry to clean up the Site in the event that the Owner is unable or unwilling to do so.

The reason for Condition 8.0 is to ensure that appropriate Ministry staff have ready access to the Site for inspection of facilities, equipment, practices and operations required by the conditions in this Approval. This condition is supplementary to the powers of entry afforded a Provincial Officer pursuant to the EPA, OWRA and PA.

The reason for Condition 10.1 is to specify the approved service area from which waste may be accepted at the Site.

The reason for Condition 10.2 is to specify the hours of operation for the Site.

The reason for Condition 11.1 is to ensure that users of the Site are fully aware of important information and restrictions related to Site operations, access and emergency response under this Approval.

The reason for Condition 11.2 is to ensure the controlled access and integrity of the Site by preventing unauthorized access when the Site is closed and no site attendant is on duty.

The reason for Condition 12.1 is to specify the types of waste that may be received at the Site.

The reason for Conditions 12.2, 12.3, 12.4, 12.5, 12.6, and 12.7 is to ensure that all wastes received at the Site are properly identified and classified to ensure they are managed in accordance with Reg. 347 and in a manner that protects the health and safety of people and the environment.

The reason for Condition 13.0 is to specify the maximum amount of waste that may be received and stored at the Site.

The reasons for Condition 14.0 are to specify the manner in which waste may be stored at the Site, and to ensure that waste storage is carried out in accordance with all applicable spill protection standards.

The reason for Condition 15.0 is to specify the types of processing that may be carried out at the Site.

The reason for Conditions 16.0 and 18.0 is to ensure that the Site is operated in a manner which does not result in a nuisance or a hazard to the health and safety of people and the environment.

The reasons for Condition 19.0 are to ensure that inspections of all Site grounds and infrastructure are carried out on a regular basis, and that detailed records of Site inspections are recorded and maintained for compliance and information purposes.

The reason for Condition 20.0 is to ensure that any complaints regarding Site operations at the Site are responded to in a timely manner.

The reasons for Conditions 21.0 and 22.0 are to ensure that an Emergency Response Plan and a Fire Safety Plan are developed and maintained at the Site, and that staff are properly trained in the operation of the equipment used at the Site and emergency response procedures.

The reason for Conditions 23.0 and 27.0 is to ensure that the Site is operated by properly Trained staff so that the operation of the Site does not result in a hazard or nuisance to people or the environment.

The reason for Condition 24.0 is to provide for the proper assessment of effectiveness and efficiency of site design and operation, their effect or relationship to any nuisance or environmental impacts, and the occurrence of any public complaints or concerns. Record keeping is necessary to determine compliance with this Approval, the EPA and its regulations.

The reason for Condition 25.0 is to ensure that regular review of site development, operations and monitoring data is documented and any possible improvements to site design, operations or monitoring programs are identified. An annual report is an important tool used in reviewing site activities and for determining the effectiveness of site design.

The reason for Condition 26.0 is to ensure that the Site is closed in accordance with Ministry standards in a manner that protects the health and safety of the public and the environment.

In accordance with Section 139 of the *Environmental Protection Act*, you may by written notice served upon me, the Ontario Land Tribunal and in accordance with Section 47 of the *Environmental Bill of Rights*, 1993, the Minister of the Environment, Conservation and Parks, within 15 days after receipt of this notice, require a hearing by the Tribunal. The Minister of the Environment, Conservation and Parks will place notice of your appeal on the Environmental Registry. Section 142 of the *Environmental Protection Act* provides that the notice requiring the hearing ("the Notice") shall state:

- a. The portions of the environmental compliance approval or each term or condition in the environmental compliance approval in respect of which the hearing is required, and;
- b. The grounds on which you intend to rely at the hearing in relation to each portion appealed.

The Notice should also include:

1. The name of the appellant;
2. The address of the appellant;
3. The environmental compliance approval number;
4. The date of the environmental compliance approval;
5. The name of the Director, and;
6. The municipality or municipalities within which the project is to be engaged in.

And the Notice should be signed and dated by the appellant.

This Notice must be served upon:

Registrar*
