Dear Mr. O'Hara,

Re: ERO number 013-4506 Proposed Framework for Provincially Significant Employment Zones

Trisan Construction has been involved in municipal construction for over 18 years, completing numerous projects throughout the Greater Horseshoe Area.

For the past 10 years we have been leasing a three-acre parcel of land at 0 Passmore Avenue N/S, Toronto, owned by D. Crupi & Sons Limited. Presently we employ approximately 46 employees out of this location, mainly for work in the City of Toronto consisting of mostly night and weekend work involving considerable noise from heavy equipment and construction materials being transported in and out of this yard.

Areas, like ours around the Greater Horseshoe Area need to be preserved in order to provide a better array of employment opportunities in close proximity to where employees live and easy access to public transit, as well as providing these cities with timelier and more economically efficient services.

Please take into consideration our support for the above noted proposal and if you require anything else do not hesitate to contact the undersigned.

Sincerely,

per Angelo Santorelli
President
Trisan Construction
